ELECTRO-SMOG PROTECTION DEVICES

No one can escape the effects of electric radiation, because there is no place that is free of electric radiation fields. Antennas and mobile phones can provoke nerve irritation. Especially in children and particularly sensitive people, electro-smog and energy disturbance fields can cause concentration disorders, fatigue and exhaustion. ENERGY PRODUCTS ELECTRO-SMOG PROTECTION DEVICES are designed for humans, animals and plants for which disturbance fields cause pain or discomfort.

ENERGY PRODUCTS protective devices produce more than 40 protective frequencies of less than one billionth of a watt. These oscillations result in a stabilization of cellular activity.

A total of 6 electro-smog protection devices are available in different intensities.

THE FUNCTION OF ENERGY PRODUCTS BIORESONANCE DEVICES

The bioresonance function has been proven for many years. In addition to the electro-smog protection, the BODYGUARD BIORESONANCE device has a switchable bioresonance function (bioregulatory resonance therapy). The body's own signals (vibration and frequency patterns) are picked up and returned to the body in harmonized frequency. A constant application enables the self-healing of the organism and thus supports the recovery of biological balance. The bioresonance function of the BODYGUARD BIORESONANCE device can be used as needed. It is also excellent for animals.

ADVANTAGES AND BENEFITS OF THE ELECTRO-SMOG PROTECTION DEVICES

- ✘ Protection against electromagnetic radiation and electromagnetic interference fields
- ✘ Protection against geological interference fields and electric radiation from mobile phones
- ✘ Without harmful radiation (harmless to humans and animals)
- ✘ Guaranteed long-term operation up to approx. 10 years
- ✘ Immediately ready for use
- ✘ Environmentally friendly (electromagnetic) operation
- ✘ Ionized with various frequencies
- ✘ Free of chemicals and other pollutants
- ✘ Free of electro-smog
- ✘ Switchable bioresonance function (device-dependent)
- ✘ Small investment - Large impact

Benefits of the bioresonance function :

- ✚ Harmonisation of the body's own cell vibrations
- ✚ Pain-relieving for headache and tension pain
- ✚ Activation of the self-healing power of the body
- ✚ Effective against fatigue and concentration disorders

GUARANTEED EFFECT

The ELECTRO-SMOG PROTECTION DEVICES operate according to a process developed by ENERGY PRODUCTS. The devices operate without any wear and tear and maintenance, using little space. ELECTRO-SMOG PROTECTION DEVICES meet CE standards and have a 2-year factory warranty.

The many reactions of our satisfied customers are the best proof for the effect of our ELECTRO-SMOG PROTECTION DEVICES.
