PROFESSIONAL DRINKING WATER REGENERATION

The healing effect of the water was already known to the physician Paracelsus 500 years ago. Modern medicine has lost sight of the healing effects of healthy water.

This provides all the more reason to sit up and take notice of the message from the successful American-Iranian physician Farid Batmanghelidj. He recommends regular drinking of high-quality water to eliminate pain and disruptive factors. Water rinses the organs and cleanses connective tissue and cells. Also for animals and plants, good water has a vitalizing effect.

After years of research, the water researcher Viktor Schauberger discovered that our drinking water loses its natural power and healing effect as a result of technical intervention. He developed the vortexing theory, according to which water regains its original power.

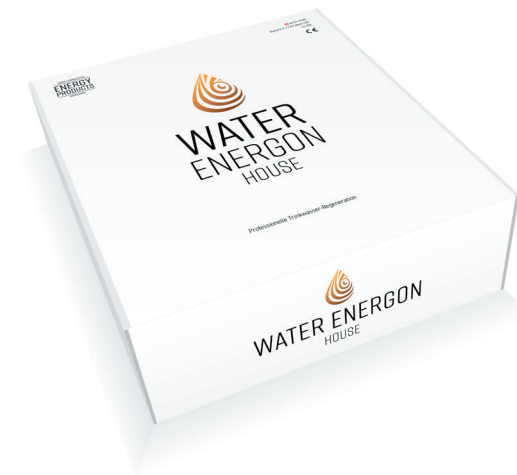

The technology applied by ENERGY PRODUCTS is based on these findings. In addition to vitalization, the water is also electro-magnetically detoxified.

THE BENEFITS OF WATER ENERGON PRODUCTS

- 💧 Gives tap water the vitality of spring water
- 💧 Stimulates metabolism and detoxification
- 💧 Energy saving by improving the thermal conduction values
- 💧 Long-term operation up to about 20 years is guaranteed
- 💧 Quick and easy to install
- 💧 Visibly reduces rust and limescale deposits
- 💧 Eco-friendly functionality (electromagnetically)
- 💧 Ionized with various frequencies
- 💧 Excluding chemicals, salts and other additives
- 💧 Free of electro-smog
- 💧 Small investment - Large impact

THE FUNCTIONING AT SCIENTIFIC LEVEL

Excerpt from the water analysis report by Prof. h.c. Dr. Manfred Hartmann, Darmstadt, dated 12 February 2003: «The tap water had a BOVIS value (vitality of the water) of about 3300 units with left polarity. Water which was treated with a WATER ENERGON HOUSE had a BOVIS value of 22000 units, with right polarity. Accordingly, in a reference test, the two waters were no longer comparable. Furthermore, tests also showed a hexagonal structure as a result of treatment with the regenerator. The quality of the water treated with the water regenerator is comparable to that of curative water. The drinking test was also very appealing, that is to say very tasty...»

Watercrystals photographed by Ernst Braun in reference to the method developed by E. Emoto. In untreated water, the images show an unbalanced, shapeless structure. In the water treated with WATER ENERGON the molecules have recovered their natural structure.

WATER ENERGON APPLICATION AREAS

The WATER ENERGON INDUSTRY is designed for a greater water demand and is used for example in residential blocks, swimming pools, industrial water systems and agricultural irrigation systems. The WATER ENERGON HOUSE is used for the average water consumption of a single- or two-family house, and the WATER ENERGON APPARTEMENT is designed for the moderate need of a tap. The product line works according to the method developed by ENERGY PRODUCTS for revitalizing and electromagnetically detoxifying water.

The WATER ENERGON INDUSTRY and the WATER ENERGON HOUSE are installed without tools. The WATER ENERGON APPARTEMENT can be easily attached to the fresh water supply of the tap. With batteries (2 x 1.5 V) all units can be operated independently of the mains. The batteries must be replaced after about one year. Because of the contactless vitalization of the water, the WATER ENERGON works for years without any wear and tear and maintenance, using little space. WATER ENERGON products are CE compliant and have a factory warranty of 2 years.

GUARANTEED EFFECT

More vital energy, disappearance of dysfunction in the digestive system, no more mouth odour, reduction of allergic reactions, reduction of midday fatigue, enjoyable drinking of water etc.
- also successful application on animals and plants.

The many reactions of our satisfied customers are the best proof for the effect of WATER ENERGON DEVICES. These are not only used in Europe, but also sold to Asia.
